Profile

I'm a Front-end web developer and my primary focus is creating attractive, easy-to-use interfaces for web applications. I have a strong background in software engineering, with particular experience in front-end web development using popular technologies such as HTML, CSS, Bootstrap, jQuery and JavaScript. I use the React.js framework which allows me to build dynamic and interactive user interfaces. I also have experience in responsive design principles, ensuring apps appear and work seamlessly across different devices and screen sizes. I'm seeking to find a position as Front-End Developer.
